学術報告

Scientific Reports  
of the Faculty of Agriculture  
Meijo University  
No. 49, 2013

第49号

平成25年3月

## 目 次

### 原 著

|                                                                                                     |   |
|-----------------------------------------------------------------------------------------------------|---|
| 濱田千晶・山田理昂・吉田浩平・本田修二・細田晃文・片山好春・林 義明・村野宏達・平野達也・田村廣人：<br>稲わらを資源とした水田での再生可能エネルギー（バイオメタン）の創製－GETシステムの構築－ | 1 |
|-----------------------------------------------------------------------------------------------------|---|

|                                                 |    |
|-------------------------------------------------|----|
| アスタ トウラダール・新居直祐：ブドウ根の肥厚並びに外層部の離脱過程における細胞組織構造の変化 | 11 |
|-------------------------------------------------|----|

|                       |    |
|-----------------------|----|
| 林 義明・石川 聡：山羊乳キャラメル受容性 | 19 |
|-----------------------|----|

|                                                                                                                                                                                             |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Haruki TAKEI and Shigetoshi SUZUKI : Nitrate Requirement and the Quantitative Management Method of Nutrient Solution<br>Based on the Nitrate Supply in Hydroponic Culture of Spinach Plants | 25 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|

### 総 説

|                               |    |
|-------------------------------|----|
| 濱本博三：金属酸化物を活用する新規酸化反応システムの有用性 | 33 |
|-------------------------------|----|

### 資 料

|                                                                                                                                                               |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 志水元亨：糸状菌 <i>Aspergillus nidulans</i> の新規Nudix hydrolaseによるNAD <sup>+</sup> 、Sirtuin活性およびカビ毒生合成の制御<br>機構 ( <i>Mol. Cell. Biol.</i> , 2012, 32, 3743-3755. の解説) | 43 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------|----|

|                                      |    |
|--------------------------------------|----|
| 中尾義則：海外長期在外研究記：アメリカ合衆国カリフォルニア大学デービス校 | 49 |

## CONTENTS

### Original Articles

- Chiaki HAMADA, Michitaka YAMADA, Kohei YOSHIDA, Shuji HONDA, Akifumi HOSODA, Yoshiharu KATAYAMA, Yoshikai HAYASHI, Hirotatsu MURANO, Tatsuya HIRANO and Hiroto TAMURA : Establishment of renewable energy, biomethane, production system from rice straw in paddy field – GET system – ..... 1
- Astha TULADHAR and Naosuke NII : Anatomical Changes of Root Thickening and Shedding Process of Outer Layer during Secondary Growth in Grapevine Roots ..... 11
- Yoshiaki HAYASHI and Satoshi ISHIKAWA : Acceptability of goat milk caramel ..... 19
- Haruki TAKEI and Shigetoshi SUZUKI : Nitrate Requirement and the Quantitative Management Method of Nutrient Solution Based on the Nitrate Supply in Hydroponic Culture of Spinach Plants ..... 25

### Review Article

- Hiromi HAMAMOTO : Novel Uses of Oxometalate Catalysts in the Design of New Oxidation Methods ..... 33

### Notes

- Motoyuki SHIMIZU : Commentary on the article: Hydrolase Controls Cellular NAD, Sirtuin, and Secondary Metabolites. (*Mol. Cell. Biol.*, 2012, 32, 3743-3755) ..... 43
- Yoshinori NAKAO : What I Learned from the States Life at UC Davis for One Year ..... 49

- List of Contributions (2011~2012)** ..... i

- List of Editors in No. 48, 2012 ..... x

- Submission of the Manuscripts ..... xi

- Preparation of the Manuscripts ..... xii

- Invoice Form of the Manuscripts ..... xiv
